MAKE A FOREST | DRONTEN

Status

There are some seats in the center of that area
But scattered, not allow many people gather together
There is no common topic among them
Lack of communication

Reasons

The language problem

No gathering space

They do not want to talk with strangers

Purpose

Let them say something or do something together
Feel free, feel happy

Solution

Make weight scale benches

Need others to read the measurement from the back of seats

Begin to talk to somebody else

Strike up a conversation with others
